Transparency Policy

MBK International Services Inc. is committed to fostering a culture of openness, accountability, and clarity in all its communications and operations. This Transparency Policy outlines the principles and practices we uphold to ensure that information shared with stakeholders is timely, accurate, and accessible.

1. Governance Transparency

We maintain open lines of communication with stakeholders regarding our governance structure, leadership roles, and decision-making processes. Our board and executive team disclose key policies, meeting summaries, and strategic direction when appropriate to promote accountability.

2. Financial Disclosure

MBK adheres to rigorous financial reporting standards. We provide transparent and audited financial statements, investor updates, and project-specific reporting in accordance with national and international guidelines. We also disclose material risks, investments, and capital structure details.

3. ESG and Impact Reporting

We share key performance indicators (KPIs) on environmental, social, and governance metrics. This includes carbon sequestration data, social impact metrics, and compliance certifications through recognized standards like Verra, Gold Standard, and Climate Bonds Initiative.

4. Communication and Stakeholder Engagement

We ensure clear communication channels for employees, investors, regulatory bodies, and the public. We respond to information requests in a timely and responsible manner, and we regularly publish updates via our website, reports, and investor communications.

5. Technology-Driven Transparency

We utilize blockchain technology to verify and transparently record carbon credit generation and biochar lifecycle processes. AI-powered monitoring systems also support real-time compliance tracking and data accuracy.

6. Continuous Evaluation

We review this Transparency Policy annually to align with evolving industry standards and stakeholder expectations, and we adapt it as needed to uphold our commitment to integrity.
